

Cornflake Girl

Tori Amos

Vers 1

Never was a cornflake girl
Thought it was a good solution
Hanging with the raisin girls
She's gone to the other side
Giving us the yo heave ho
Things are getting kind of gross
And I go at sleepy time

Brygga

This is not really
This, this, this is not really happening

Refräng

You bet your life it is
You bet your life it is
Honey, you bet your life
It's a peel out the watchword
Just peel out the watchword

Vers 2

She knows what's going on
Seems we got a cheaper feel now
All the sweeteaze are gone
Gone to the other side
With my encyclopaedia
They must have paid her a nice price
She's putting on her string bean love

Brygga

This is not really

This, this, this is not really happening

Refräng

You bet your life it is

You bet your life it is

Honey, you bet your life

It's a peel out the watchword

Just peel out the watchword
