

NOBODY'S SOLDIER

HOZIER

Vers 1

Running with bulls, working my miracles
Holding my world together with a boot string
Living the dream, Benzos and gasoline
Coffee and blue light screens 'til the morning

Brygga

If I tell you this is drowning, you'd tell me I'm walking on water
I could bring fire from the mountain, you'd tell me it feels a little colder
I don't wanna

Refrång

Choose between being a salesman or a soldier
Just let me look a little older, let me step a little bolder
Choose between being a butcher or a pauper
Honey, I'm taking no orders, I'm gonna be nobody's soldier

Vers 2

Sick to my skin, watching the news again
Whatever you choose, you lose out in the long run
The paint on the walls come down like a waterfall
The goal I was aiming for was the wrong one

Brygga

If I say that this is drowning, you'd tell me I'm walking on water
I could bring fire from the mountain, you'd tell me it feels a little colder
I don't wanna

Refräng

Choose between being a salesman or a soldier

Just let me look a little older, let me step a little bolder

Choose between being a butcher or a pauper

Honey, I'm taking no orders, I'm gonna be nobody's soldier
